

Section VI.2.B: Specific Filter (p177 - p180)

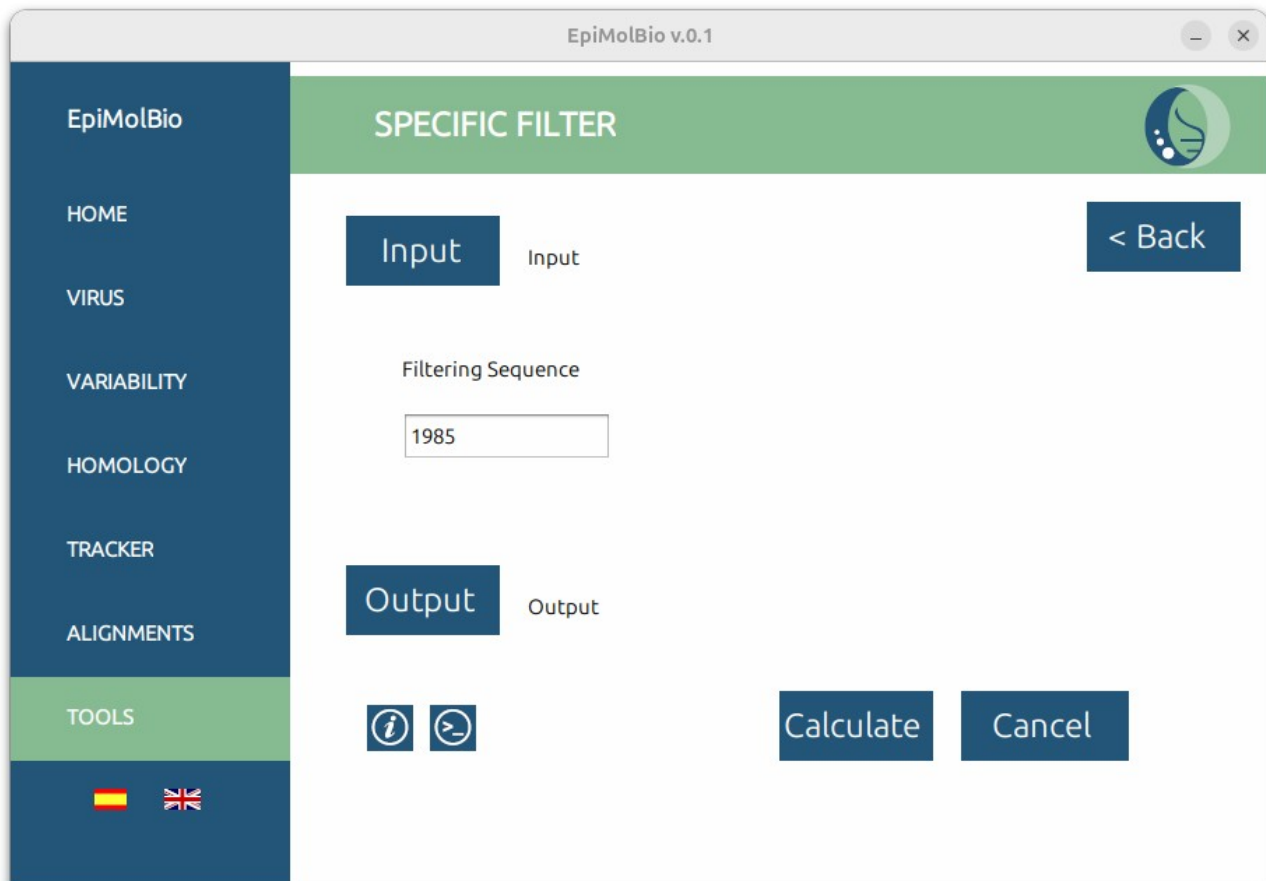

See the full manual [here](#).

Example File

File Name: SPECIFIC FILTER RT HIV-1 NT.fasta

Parameter Selection

- Filtering Sequence:
 - 1985

The screenshot shows the EpiMolBio v.0.1 web interface. The left sidebar contains navigation links: EpiMolBio, HOME, VIRUS, VARIABILITY, HOMOLOGUE, TRACKER, ALIGNMENTS, TOOLS (highlighted), and language flags (Spanish and English). The main content area is titled 'SPECIFIC FILTER' and features a green header with a DNA helix icon. The interface includes an 'Input' section with a text box containing '1985' under the label 'Filtering Sequence'. Below this is an 'Output' section. At the bottom right are 'Calculate' and 'Cancel' buttons. A '< Back' button is located in the top right corner of the main area. Information and help icons are present at the bottom left of the main area.
