

Sección I.2: SARS-CoV-2 – Rastreador de Proteínas (p39 - p43)

Consulta el manual completo [aquí](#).

Archivo de Ejemplo

Nombre del archivo: NSP1 (LEADER) RASTREADO SARS-COV-2.fasta

Selección de Parámetros

- Seleccionar Proteína:
 - *nsp1 (Leader)*
- Traducir/No Traducir:
 - *Traducir*

The screenshot shows the EpiMolBio v.0.1 web application interface. The title bar indicates the version. The main header is green with the text "RASTREADOR DE PROTEÍNAS" and a logo. A dark blue sidebar on the left contains navigation links: "EpiMolBio", "INICIO", "VIRUS" (highlighted in green), "VARIABILIDAD", "HOMOLOGÍA", "RASTREADOR", "ALINEAMIENTOS", and "HERRAMIENTAS". At the bottom of the sidebar are flags for Spanish and English. The main content area has a white background. It features a "Entrada" button and label, a "Selección de Proteína" dropdown menu with "nsp1 (Leader)" selected, and radio buttons for "Traducir" (checked) and "No Traducir". There is also a "< Atrás" button. Below these are a "Salida" button and label, and two icons (information and help). At the bottom right are "Calcular" and "Cancelar" buttons.
